

PE and Sports Premium September 2013-2018

PE and Sports allocation – 2013-2018

This academic year and for the previous 3 we have benefited from a Sports Grant of at least £10,500, with the premium doubling in the current academic year.

What areas have we spent it on?

Extra-Curricular activity
Swimming
Networking
Improving the quality of PE, Sport and CPD for staff
Healthy School initiative
Occasional one off events which link to our objectives

What has the impact been?

Extra-Curricular- Since the introduction of the sports grant we have been able to introduce new clubs to the provision we already had. Some clubs do not run anymore due to staff leaving however the additional clubs that are still running weekly are additional Football Clubs for KS2 Girls, Y3/4 and KS1, Cricket (Summer Term only) Karate, Street Dance and Gymnastics. Most clubs including the additional ones lead to a level 1 or 2 competition and as a result we have gained the Sainsbury's Games Bronze, Silver and Gold Awards. We analyse club registers and work out how many children have taken part in something extra throughout the academic year- the first measure was 76.5%, we got 95% in 2016-2017 and are now close to getting 100%. In addition, to encourage regular attendance we run a termly competition where by anyone who attends a morning or after school club each week gets a certificate and is entered into a draw to win a £20 voucher; each year the numbers increase from term to term. For example, the first draw had 9% of our children in the draw from Y1-6; last academic year we saw that increase to 59% of children.

Swimming

We started with only 1-year group but now children go swimming for a term in Y3,4 and 5. We also have a focus group of Y6 children who were close to meeting the objectives attending an extra session a week. This has made a huge impact on our swimming data as the number of children swimming 25 meters and using different strokes has more than doubled. Some children have also started to learn lifesaving skills which had not previously happened in swimming lessons.

Networking- We have benefited from the support of AFPE and Youth Sports Trust. This has enabled us to attend courses, gain access to resources and increase our network. We already had access to the Capital City Sports Partnership but in addition we took on a Sports Apprentice for two years meaning we extra support growing our PE and Sport provision.

Improving the quality of PE, Sport and CPD for all staff-

We have used the money for staff to go on courses including a Level 2 Football course for a coach; teachers have been on courses provided through partnerships such as Start to Move and Inclusion. The subject leader has completed the Level 5 in Specialist PE teaching and Level 6 in Subject Leadership which has developed their PE teaching and leading. Days have also been spent off timetable assisting colleagues with planning; assessment and the delivery of PE, the cost of supply teachers to cover teachers were covered by the sports grant. Teacher's evaluations of the training they have received have shown an increase in confidence and competence in PE delivery. Subsequent assessment data has also shown a positive impact.

Healthy Schools- We have worked with A-Life to run healthy food and exercise workshops for children. We are using these workshops and assemblies as part of an initiative for a healthier school. We have gained (twice) the Mayor of London Healthy School Award, had a Fit 4 Health initiative which included workshops for parents.

This had led to an increase in the number of children in Y3-6 who had a generally healthy packed lunch (brown bread, lots of fruit and vegetables) for 3 days or more in a week from 48% to 82% and a reduction of children who had chocolate and/or crisps during the week from 90% to 54%. We are now moving onto the next part of our healthy school initiative and are going to start the process of banning certain items and redoing the audit on random times rather than over a week to check consistency.

Occasional one off events which link to our objectives –

Examples

- Hiring tennis courts for PE lessons improving children's understanding and skill
- Wimbledon tickets for children to attend and watch the Championships increasing their knowledge, understanding and experience
