

PE and Sports Premium Impact 2013-2018

Introduction

Since September 2013, every state school/academy has benefited from the PE and Sports Premium with the aim of improving the quality and extending sport provision, every school was given a lump sum of £8000 then £5 for every pupil from Y1-Y6. In 2017 the amount of money a school received doubled meaning the average amount of money Braintcroft received went from £10,700 to £21,400.

What has been achieved and what has the impact been?

Extra-Curricular/Competition- We have been able to introduce new clubs to the provision we already had led by the PE Coordinator and other colleagues. We have also been able to use the coaches already employed for lunchtimes to carry out extra sessions after school. The extra activities that have been made available since 2013 are

- Netball
- Street Dance
- Karate
- Basketball
- Dodgeball
- Additional football sessions to cater for the big demand.
- We have competed against other schools in rounders and dodgeball for the first time.

Those that prove to be the most successful are then continued and we are always looking for more ways for the children to be physically active and enjoy PE and Sport. Our first audit that took place showed that 76.5% of children from Y1-6 took part in an additional activity, we continue to regularly audit and that number has now increased to 98% in the academic year 2017-2018 and 2018-2019. Another initiative that contributed to this was the competition we ran where anybody who attended a club each week for a term was entered into a draw to win a £20 voucher.

We already entered a wide range of events and competitions but due to extra activity/funds we have been able to enter, travel and host extra competitions. This had led to us achieving all three levels of School Games Award outlining the progress we have made.

Improving the quality of PE across the whole school

We have used the premium to increase teacher's knowledge, understanding and confidence in the planning and delivery of PE and/or extra-curricular activity in the following ways since 2013:

- Subject leader achieved the Level 5 certificate in Specialist PE Teaching and Level 6 in PE Subject Leadership.
- Sporting Qualifications funded for coaches and/or staff including FA Primary Teacher's Award, Level 2 Football, Primary Gymnastics and Level 1 Netball.

- Paying for supply teachers to cover subject leader while he had extra subject leader time- during this time lessons were observed/modelled, planning monitored and training delivered.
- Pay for supply teachers to cover teachers attending CPD training.
- QPR coaches working alongside staff to improve PE lessons.
- Invest in spare PE kits meaning all children can take part fully in lessons. We also ran the 100% PE kit competition alongside the club competition with another £20 voucher being awarded.

After any PE CPD/training staff fill in an evaluation form and detail the impact that it will have on their practice, lesson/planning monitoring continues to ensure sustainability. Subsequent assessment data also records the impact the training has had. We have twice been awarded the AFPE Quality Mark since 2013 due to our commitment to the continuous improvement of PE.

Swimming

We have able to provide extra swimming lessons which has resulted in attainment rising. A full breakdown can be seen in the swimming document.

Networking

We were already members of the Capital City Sports Partnership but also became members of AFPE and Youth Sports Trust, giving us access to resources and training. We also employed a Sports Apprentice for two years which helped us grow PE and Sport in the early years of the premium.

Healthy Schools

Under previous guidance which has since been updated, we ran A-Life workshops with a huge focus on healthy eating. This led to an increase of children who had a generally healthy packed lunch (brown bread, fruit and vegetables) for 3 days or more in a week from 48% to 82% and a reduction of children who had a lunch containing chocolate/crisps during the week from 90% to 54%. We were awarded the Mayor of London Healthy School Award twice. Since the guidance changed we have continued with our healthy school initiative and have continued to fund work with A-Life but to focus more on children's physical activity throughout the day.
